

OCCUPATIONAL HEALTH & SAFETY POLICY

In keeping with acting on its “clean, safe, and quality production” motto and believing that work-related accidents and illnesses are preventable, Çolakoğlu® Metalurji A.Ş. determines its occupational health and safety goals in concert with its employees and all other stakeholders. With the leadership of its senior management and with the involvement of its employees, the company takes action as required by law and as dictated by other circumstances both to increase the performance of its OHS management system and to ensure its continuity.

We systematically improve ourselves in order to ensure safe and healthy working conditions by identifying and minimizing work-related accident and illness risks that may arise from the conduct of our operations in advance and, with the participation of our employees, to effectively reduce such risks.

We hereby declare that we will continue to make every possible effort in order to foster a sustainable occupational health & safety culture and to make that culture a cherished value and way of life in line with the foregoing principles.
