

## Sustainability Policy

As Çolakoğlu Metalurji, we recognize sustainability as one of the fundamental elements of our “Future-Ready Steel” strategy. With this approach, we aim to enhance our sustainability performance across environmental, social, and governance dimensions, adopt business processes that create value for current and future generations, and assume a pioneering role in the sector through our environment- and society-oriented initiatives.

We adopt the following principles based on our purpose:

- To reduce our carbon footprint in line with the European Green Deal and national commitments, by achieving a 55% reduction in Scope 1 and Scope 2 emissions by 2030 and reaching net zero emissions by 2050,
- To increase raw material efficiency and prioritize recycling processes in accordance with circular economy principles,
- To accelerate the transition to renewable energy and optimize production processes through energy efficiency practices,
- To minimize waste at the source and reintegrate it into the value chain through advanced recovery methods,
- To use water resources efficiently, fairly, and responsibly, with a focus on reducing the water footprint,
- To preserve air quality by implementing emission control technologies,
- To safeguard natural ecosystems and ensure the continuity of biodiversity as a fundamental principle of our activities,
- To support employee development, provide a safe and healthy working environment, and embed equal opportunity and inclusiveness into our corporate culture,
- To contribute to sustainable social development through education, sports, culture, and environmental projects,
- To strengthen governance practices based on transparency, accountability, and ethical values,
- To ensure corporate resilience through sustainable financial growth and create long-term value for stakeholders,
- To establish sustainable supply chains guided by responsible procurement and collaboration principles,
- To deliver sustainable, reliable, and innovative solutions with a customer-focused approach to ensure long-term satisfaction.
